

## **Difference between pad sets T2444, T2498 and T1376**

We would like to inform you about the difference between passenger car pads T2444, T2498 and T1376.

For some models VAG-Group uses brake pads with slightly different widths of the backing plate. This is a result of multiple years development of the brake manufacturer and shall ensure an optimal operation of the brake pads.

PAGID follows this approach and added corresponding pad sets to range.

Due to this reason backing plates in pad set T2444 and T2498 are all 155,1mm wide whilst on pad set T1376 backing plates are 155,1 resp. 156,3mm wide.

Exact allocation is based on PR-numbers of VAG. You find this information in the service booklet of your vehicle.
