## HOW TO RECOVER THE TOP MOUNTING BOLT OF THE REAR SHOCK ABSORBER

Fiat Tipo / Tempra

FI051EU

- During the dismantling of the rear shock absorber, the upper bolt might fall down in the chassis.

To retrieve the bolt:  
Remove the rear seat (2 Torx F) to get access to the floor hole

TIGHTENING TORQUES		daN.m
A	Upper Mounting	5.6
B	Lower mounting	8.8
