ProTec S®

When it comes to commercial vehicles, the safety of drivers and their cargo is a top priority. Even though brakes are arguably the most safety-critical component on any vehicle, they're also vulnerable to faults resulting from improper fitment. That's why Jurid® is bringing to market the innovative pad retaining system ProTec S® that Knorr-Bremse has developed in conjunction with the foremost European commercial vehicle manufacturers. This clever technology ensures a permanent, welded connection between the spring and the brake pad's backplate.

What's in it for you

- The assurance of latest OE technology
- Quick, error-free installation
- More efficient braking
- Reduced brake noise and idle wear

Jurid® is a registered trademark of Tenneco Inc. or one of more of its subsidiaries in one or more countries.
