

EBS

Socket

The rubber-coated surface of the contact insert results in an even higher leak tightness on the socket from the contact side. The rubber pres-

ses on the contact pins, which prevents water penetration in the rear section of the socket.

Number of Poles:

7

IP-Code:

IP 69

Plug Type:

Screw Contact

Info:

with wire end ferrules

Shape:

angled

with seal

Mounting Type:

Bayonet

Registration Type:

ADR/ GGVS Checked
