

## Keep a clear view - with washer pumps by febi bilstein

A defective washer pump is more than just irritating. It's downright dangerous. Windscreen wipers are not always enough to deal with dirty water splashing against the screen, or grit being whirled up. If the windscreen washer system is not functioning properly, the view through the screen may become blurred or even be blocked entirely. That's why any defects in the washer system should be remedied immediately.

Quite often, failure is caused by leakage or a defective washer pump. febi bilstein has the solution: Washer pumps in OEM-quality for many vehicles from European commercial vehicle manufacturers, e.g. for Renault Truck and DAF Trucks models:

febi no. 27351

to fit:  
DAF Trucks LF 45, LF 45 IV, LF 55, LF 55 IV
