OPTIONAL

Trailer Simulator for 7- and 13-pin Sockets

Part-no.
765069

27

ACHTUNG:

In diesem Elektro-Einbausatz ist eine Anhänger-Blinkerüberwachung (Anhänger-Modul) integriert.

Der Ausfall einer Anhänger-Blinkleuchte wird erst nach 6 bis 16 normalen Blinkintervallen mit einer doppelten Blinkfrequenz dargestellt.

Hinweis: Diese verzögerte Art der Blinkerausfallerkennung ist kein Fehler im Anhänger-Modul, sondern fahrzeugseitig bedingt! Unabhängig vom Anhängerbetrieb wird auch der Ausfall einer fahrzeugeigenen Blinkerleuchte erst leicht verzögert dargestellt!

ATTENTION:

The towing electrics now fitted to this vehicle is equipped with a trailer module which monitors the condition of the trailer flashers. If a flasher bulb on the trailer fails, there will be a delay time of between 6 and 16 normal flash cycles before a rapid flash warning is given.

NOTE: This is not a fault with the towing module, it is the vehicle's own flasher system controller which operates in this way.
