

## Replacing SAC design clutch with conventional aftermarket replacement.

The enclosed parts differ in appearance to the original equipment design.

### Original clutch design

### Aftermarket clutch design

We have carried out stringent testing and evaluation to ensure the units are suitable alternatives.

## Dual mass flywheel identification on Mercedes Sprinter

Due to o/e design changes, there are two different depth flywheels fitted between 2000 -> 2006.

7.9mm depth flywheel- This clutch is not suitable

Depth from the clutch bolting surface is 7.9mm. This design was factory fitted ->3/2004.

11.9mm depth flywheel - This clutch kit is suitable

Depth from the clutch bolting surface is 11.9mm. This design was used 3/2004-> but may be retro-fitted to older models.
