For current listing refer to parts catalogue

If the above-mentioned FAG SmartSET is installed, the old shaft seal must not be reused.

Instead, the sealing ring supplied with the SmartSET must be installed. The sealing lip has a different dimension.

Fig. 1: The shaft seal ring is supplied with the FAG SmartSET 723 7036 10 and 723 7011 10.

Fig. 2: The sealing lip of the supplied shaft seal (above) differs only slightly from the original installed version (below).

Please observe the vehicle manufacturer specifications!
